DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114 filed on 4/18/05, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/14/05 has been entered.
2. Applicant's amendment to update the information with regard to the copending and/or granted patent listed in page 1 of the specification is required in response to this office action.
3. Applicant's IDS filed 3/14/05 has been accepted and considered. A copy of an initialized IDS is accompanied herein.
4. Applicant's arguments, see page 6-7, filed 3/14/05, with respect to Wolff et al. reference have been fully considered and are persuasive. The rejection of claims 1-19 has been withdrawn.
5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the spatial extent" in line 5. There is insufficient antecedent basis for this limitation in the claim. In addition, the phrase "visible information the spatial extent" is unclear to what application refers to. Does it refer to "visible information" and "spatial extent"? Please spell it out.

Dependent claims 2-19 are also rejected for the same reasons as above.

Art Unit: 2621

7. Claims 1-19 are allowed.
